وبحلول شهر سبتمبر/أيلول ومن بين الأفكار التي سوف نراها، يظهر من جديد نمط مليء بالجاذبية العتيقة، ولجنياح الذهب الأصفر والياس والأحجار الكريمة، كد لا تكون مجوهرات للاستخدام اليومي ولكنها ذات تكثر بلا شك. ومن بين هذه نذكر الأساور الكبيرة "Tanaquilla" من تصميم روبرت كوين، والأقراط اللؤلؤية من تصميم دي جريسونو، وقلائد "جرانيسكو" من تصميم بولغاري، والخاتم على شكل جناحات Forever Unique والقلائد من تصميم ماركو بيسيجو، وتلك التابعة للمجموعة "كان" من تصميم سالفوني.

mixed bracelets, such as those of the Tanaquilla collection of Roberto Coin, in yellow gold and brown diamonds mbing high-quality workmanship and antique style. Surely they don't go unnoticed the de Grisogono's spiral earrings, characterized by a refined but impressive finish, in diamond-studded gold, important but super chic. It needs no words the Bulgari piece of jewelry, you are almost speechless to see what the craftsmen of the Maison from Rome have created for the most exclusive line: a necklace, called the Gradisco, belonging to the platinum collection Festa, diamonds with central emerald. If you are pointing to the "wow" effect while remaining on the classic the ring Forever Unique can be a great option, in yellow gold and diamonds, it features a wing shape that makes it special. A must of the "going back to school" will be the necklaces, important both in style or size, such as that of Marco Bicego inspired by the distant lands of Africa. Fun but with an elegant souls are the Salvini's necklaces, playful for the name "Can Can" and for the light and super funny look, and that of Baccellati presenting a retrò pendant. Certainly these beautiful jewelry won't make the return easier but will sweeten a very bitter pill thanks to their beauty.
